You may not be perplexed to enjoy every books collections development with a human face experiences in social achievement and economic growth that we will categorically offer. It is not re the costs. Its approximately what you craving currently. This development with a human face experiences in social achievement and economic growth, as one of the most in action sellers here will entirely be in the course of the best options to review.

Development with a Human Face presents retrospective studies of ten developing countries that have demonstrated successful health and educational development over the last thirty to forty years despite low incomes. Half of them have combined rapid economic growth with social achievement, while the others have experienced slower growth, interrupted by periods of economic decline. However, as illustrated here, all have achieved sustained improvement in mortality reduction and educational levels, providing valuable guidance for other developing countries seeking to replicate these successful social experiments. A timely, unprecedented antidote to development pessimism that combines valuable cross-regional comparisons with region-specific studies, this book will interest policy-makers and government officials in developing countries, international agencies, development specialists, and journalists. It will also enhance graduate-level courses in development economics and development studies.

Women's Development with a Human Face - Amaryllis T. Torres - 1988

Women's Development with a Human Face - Amaryllis T. Torres - 1988

Making Faces - Adam S. Wilkins - 2017-01-02
Adam Wilkins draws on studies of nonhuman species, the fossil record, genetics, and molecular and developmental biology to
perspectives in order to discuss water security at its inextricable link to our species’ evolving social complexity. The neural and muscular mechanisms that allowed facial expressions also led to speech, which is unique to humans.

Making Faces - Adam S. Wilkins - 2017-01-02
Adam Wilkins draws on studies of nonhuman species, the fossil record, genetics, and molecular and developmental biology to reconstruct the evolution of the human face and its inextricable link to our species’ evolving social complexity. The neural and muscular mechanisms that allowed facial expressions also led to speech, which is unique to humans.

The Human Face of Water Security - David Devlaeminck - 2017-03-09
This volume collects essays from academics and practitioners from a diversity of areas and perspectives in order to discuss water security at various levels and to illuminate the central idea of water security: its focus on the individual. Beginning with the big picture, this book aims to illustrate the depth of the water security crisis and its interconnections with other aspects of societal development. It particularly draws a connection to the 2030 Agenda for Sustainable Development, and discusses that challenges faced in meeting the 17 sustainability development goals (SDG) by the year 2030. Moving from international to domestic and community perspectives, this book provides a unique analysis of issues and solutions to the water issues we face today in light of the ever looming global changes brought on by climate change. Over the past few decades the recognition of our common need for water has increased, as policymakers have sought to place more focus on the individual within policy. After the recognition of water and sanitation as a fundamental human right by the United Nations General Assembly in 2010, there is increasing recognition of the individual as the building block for the struggle for water security. This reality also intersects with adverse impacts of global climate change, and the book responds to the broader question: will clean and safe water be available where we need it and when we need it in the future?

Milestones and Turning Points in Development Thinking - Richard Jolly - 2012-05-17
As a number of developing countries gained independence in the 1960s, there was an optimism regarding possibilities for accelerating economic and social advance in Africa, Asia and Latin America. The Institute of Development Studies at the University of Sussex, UK, was established in 1966 and rapidly became a centre for academic and policy-oriented research.
A study at the juncture of Social Sciences and poverty in these regions. This book brings together 20 chapters written by pioneers of international development, fascinating for their early challenges to orthodox thinking and for their boldness in suggesting alternatives. Covering five key dimensions: perspectives and paradigms; debunking myths; development policy; gender and international perspectives and policy, each piece has a new introduction by Sir Richard Jolly, indicating its impact on policy over the years and its enduring relevance for the challenges of our times. -- Publisher description.

Milestones and Turning Points in Development Thinking - Richard Jolly - 2012-05-17
As a number of developing countries gained independence in the 1960s, there was an optimism regarding possibilities for accelerating economic and social advance in Africa, Asia and Latin America. The Institute of Development Studies at the University of Sussex, UK, was established in 1966 and rapidly became a centre of new and challenging ideas about ending poverty in these regions. This book brings together 20 chapters written by pioneers of international development, fascinating for their early challenges to orthodox thinking and for their boldness in suggesting alternatives. Politics with a Human Face - Arvydas Grišinas - 2018-03-19
Politics with a Human Face presents a holistic understanding of identity formation in post-Soviet Europe, arguing that since politics is fundamentally a human affair. In order to adequately understand it, one needs to understand its human side first. Drawing on the thought of Dilthey, Ricoeur and Plato, the author employs empathy as a method, together with visual and historical analysis, to analyse the role of human experience in post-Soviet politics. As a result, the book offers a theoretical approach for assessing influence of the non-rationalistic factors, such as associative symbolism, human experience, political images and historical narratives, in both domestic and foreign affairs. A study at the juncture of Social Sciences and Humanities, Politics with a Human Face explores a number of cases, including Estonia, Lithuania, Poland and Russia, as well as the ongoing conflict in Ukraine, examining issues of liminal transition, ‘far-right’ movements, victimhood, ethnic conflict and political paradoxes. Seeking to shed light on the region’s agency and perception of both its own political and existential situation, and that of the surrounding world, this book constitutes a timely and original contribution to understanding the post-Soviet Europe.

Adjustment with a Human Face - Giovanni Andrea Cornia - 1987
Adjustment with a Human Face: Protecting the vulnerable and promoting growth - UNICEF. - 1987
After three decades of remarkable progress,
improvements in the welfare of children and other vulnerable groups in many parts of the world began to falter in the 1980s. This study reviews the effects of the economic crisis, drawing on the experience of ten countries.

Wealth of Persons - Fr. John McNerney - 2016-08-31
Thomas Piketty's Capital in the Twenty-First Century initiated a great debate not just about inequality but also regarding the failures found in the economic models used by theoreticians and practitioners alike. Wealth of Persons offers a totally different perspective that challenges the very terms of the debate. The Great Recession reveals a great existential rift at the core of certain economic reflections, thereby showing the real crisis of the crisis of economics. In the human sciences we have created a kind of "Tower of Babel" where we cannot understand each other any longer. The "breakdowns" occur equally on the personal, social, political, and economic levels. There is a need for an "about-face" in method to restore harmony among dissociated disciplines. Wealth of Persons offers a key to such a restoration, applying insights and analysis taken from different economic scholars, schools of thought, philosophical traditions, various disciplines, and charismatic entrepreneurs. Wealth of Persons aims at recapturing an adequate understanding of the acting human person in the economic drama, one that measures up to the reality. The investigation is a passport allowing entry into the land of economic knowledge, properly unfolding the anthropological meaning of the free economy.

Development with a Human Face - Santosh Mehrotra - 1997
Covering common elements and diversities in social development across a range of developing countries, this text includes an examination of health and education policies and economic transformation.

Development with a Human Face - Santosh Mehrotra - 1997

The Human Face of Global Mobility - Adrian Favell - 2017-07-12
Alongside flows of trade and capital, the free movement of professionals, technical personnel,
Alongside flows of trade and capital, the free movement of professionals, technical personnel, and students is seen as a key aspect of globalization. Yet not much detailed empirical research has been completed about the trajectories and experiences of these highly skilled or highly educated international migrants. What little is known about these forms of "global mobility," and the politics that surround them, contrasts with the abundant theories and accounts of other types of international migration--such as low income economic migration from less developed to core countries in the international political economy. Drawing on the work of a long-standing discussion group at the Center for Comparative and Global Research of UCLA's International Institute, this collection bridges conventional methodological divides, bringing together political scientists, sociologists, demographers, and ethnographers. It explores the reality behind assumptions about these new global migration trends. It challenges widely held views about the elite characteristics of these migrants, the costs and consequences of the brain drain said to follow from the migration of skilled workers, the determinants of national policies on high skilled migrants, and the presumed "effortlessness" of professional mobility in an integrating world. The volume also sheds new light on international student migration, the politics of temporary, non-immigrant workers in the United States, new international forms of regulating movement, and the realities of the everyday lives of multinational employees in the world's transnational cities. Key differences between the regional contexts of this migration in Europe, North America, and the Asia-Pacific are also emphasized.
In the past thirty years, face perception has become an area of major interest within psychology, with a rapidly expanding research base. The Oxford Handbook of Face Perception is the most comprehensive and commanding review of the field ever published. It looks at the functional and neural mechanisms underlying the perception, representation, and interpretation of facial characteristics, such as identity, expression, eye gaze, attractiveness, personality, and race. It examines the development of these processes, their neural correlates in both human and non-human primates, congenital and acquired disorders resulting from their breakdown, and the theoretical and computational frameworks for their underlying mechanisms. For anyone looking for the definitive review of this burgeoning field, the Oxford Handbook of Face Perception is the essential book.

**Oxford Handbook of Face Perception** - Andy Calder - 2011-07-28

Warfare is hugely important. The fates of nations, and even continents, often rests on the outcome of war and thus on how its practitioners consider war. The Human Face of War examines such phenomena and seeks to explain them. The author argues that military thought should be based on an approach which reflects the nature of combat. Combat - fighting - is primarily a human phenomenon dominated by human behaviour. The book explores some of those human issues and their practical consequences. The Human Face of War calls for, and suggests, a new way of considering war and warfare.

**The Human Face of War** - Jim Storr - 2011-10-27

In our daily lives, in our memories and fantasies, our mental worlds overflow with faces. But why do we have faces at all, and brains that are good at reading them? And why are we attracted to some faces more than others? In Your Face is an engaging and authoritative tour of the science of facial beauty and face perception. David Perrett, the preeminent scholar in the field, reveals and interprets the most remarkable findings and in the process demolishes many popular myths.

Employment with a Human Face - John W. Budd - 2004
John W. Budd contends that the turbulence of the current workplace and the importance of work for individuals and society make it vitally important that employment be given "a human face." Contradicting the traditional view of the employment relationship as a purely economic transaction, with business wanting efficiency and workers wanting income, Budd argues that equity and voice are equally important objectives. The traditional narrow focus on efficiency must be balanced with employees' entitlement to fair treatment (equity) and the opportunity to have meaningful input into decisions (voice), he says. Only through a greater respect for these human concerns can broadly shared prosperity, respect for human dignity, and equal appreciation for the competing human rights of property and labor be achieved. Budd proposes a fresh set of objectives for modern democracies--efficiency, equity, and voice--and supports this new triad with an intellectual framework for analyzing employment institutions and practices. In the process, he draws on scholarship from industrial relations, law, political science, moral philosophy, theology, psychology, sociology, and economics, and advances debates over free markets, globalization, human rights, and ethics. He applies his framework to important employment-related topics, such as workplace governance, the New Deal industrial relations system, comparative industrial relations, labor union strategies, and globalization. These analyses create a foundation for reforming employment practices, social norms, and public policies. In the book's final chapter, Budd advocates the creation of the field of human resources and industrial relations and explores the wider implications of this renewed conceptualization of industrial relations.

**Development with a Human Face** - Manisha Pathak - 2020-10-18
This book takes a fresh and innovative approach to the developmental policies that have been pursued in India since its independence. These policies are based on the western philosophy of quantification of economic parameters such as GDP and Per Capita Income. These policies, however, have little relevance to India because they fail to address the twin facets of abundance of valuable human resources on one hand, and the economic political rationality specific to the problems of economic development in Indian context on the other. This book outlines a new model and process of economic development which would ensure the use of human resource in such a manner that each and every unit of human resource participates in economic activities, each and every unit of human resource would get it's just share of the result of development and majority of human resource would have faith in the process of economic development pursued by the country. It argues that though the problem of development of the country is economic in nature, its solution requires a multilateral approach.

**Pharmaceutical Achievers** - Mary Ellen Bowden - 2003
This biographical collection highlights individuals who made outstanding achievements in the arenas of pharmaceuticals and biotechnology. Pharmaceutical Achievers presents chronologically the major directions of pharmaceutical research and, in their historical context, the breakthroughs in treating various diseases. It concludes with a look at tomorrow's medicines. This work is particularly useful in the classroom, where its accounts of challenges and triumphs may inspire students to consider careers that support pharmaceutical research and development.

**Decision Theory with a Human Face** - Richard Bradley - 2017-10-31
views, deepen our self-awareness, and ultimately uncertainty that varies in both kind and severity by extending and supplementing Bayesian decision theory.

**Decision Theory with a Human Face** - Richard Bradley - 2017-10-31
Explores how decision-makers can manage uncertainty that varies in both kind and severity by extending and supplementing Bayesian decision theory.

**The Study of the Human Face** - Thomas Woolnoth - 1865

**Face to Face** - Brian Grazer - 2019-09-17
Featured on CBS This Morning, Squawk Box, MSNBC, CNN, Bloomberg, Forbes, Fast Company, The New York Times, and more. “Reading Face to Face is like being a fly on the wall, watching Brian Grazer work his magic. Utterly entertaining, this is how you become Hollywood’s best producer.” —Malcolm Gladwell, author of Talking to Strangers Legendary Hollywood producer and author of the bestselling A Curious Mind, Brian Grazer is back with a captivating new book about the life-changing ways we can connect with one another. Much of Brian Grazer’s success—as a #1 New York Times best-selling author, Academy Award–winning producer, father, and husband—comes from his ability to establish genuine connections with almost anyone. In Face to Face, he takes you around the world and behind the scenes of some of his most iconic movies and television shows, like A Beautiful Mind, Empire, Arrested Development, American Gangster, and 8 Mile, to show just how much in-person encounters have revolutionized his life—and how they have the power to change yours. With his flair for intriguing stories, Grazer reveals what he’s learned through interactions with people like Bill Gates, Taraji P. Henson, George W. Bush, Barack Obama, Eminem, Prince, Spike Lee, and the Afghani rapper activist Sonita: that the secret to a bigger life lies in personal connection. In a world where our attention is too often focused downward at our devices, Grazer argues that we are missing an essential piece of the human experience. Only when we are face to face, able to look one another in the eyes, can we form the kinds of connections that expand our world views, deepen our self-awareness, and ultimately lead to our greatest achievements and most meaningful moments. When we lift our eyes to look at the person in front of us, we open the door to infinite possibility.

**A Preliminary Study in Development as it Affects the Human Face** - Milo Hellman - 1927

**A Preliminary Study in Development as it Affects the Human Face** - Milo Hellman - 1927
Employment with a Human Face - John W. Budd - 2004
The objectives of the employment relationship -- The balancing imperative: human rights in conflict -- Balancing outcomes: the environment and human agents -- Balancing outcomes revisited: the ethics of the employment relationship -- The balancing alternatives: workplace governance -- The new deal industrial relations system -- The geometry of comparative industrial relations -- Alternatives to job control unionism -- Balancing the global workplace.

Carving the Human Face - Jeff Phares - 2009
A complete guide to creating realistic portraits in wood from a champion carver. Learn the techniques for carving hair, skin, muscle and more. Following a step-by-step project with more than 350 color photos and 50 drawings that provide useful anatomical references, you'll be guided to completely sculpt the piercing features of a Native American warrior wearing a wolf headdress.

When Leaders Face Personal Crisis - Gill Robinson Hickman - 2020-03-19
This book examines a relatively unexplored area of leadership research -- personal aspects of leadership -- by considering the impact of leaders navigating their own personal crises on their relationships with teams, peers, and supervisors. Through original research as well as an integrative review of the literature, Hickman and Knouse focus on the "leader-as-person in crisis," including the real-life personal crises and experiences of leaders. This important volume offers a detailed and thoughtful description of intersecting factors that contribute to the ways in which leaders experience and cope with personal crises to spur additional research attention to this neglected area. This book also offers current and prospective leaders advice and direction on effectively navigating personal crises.

The Human Face of Big Data - Rick Smolan - 2012
The authors invited more than 100 journalists worldwide to use photographs, charts and essays to explore the world of big data and its growing influence on our lives and society.

The Writing Life of James D. Watson - Errol C. Friedberg - 2005
James Watson's fame as a scientist and research leader overshadows his considerable achievements as an innovator in the form and style of scientific communication. This book surveys Watson's books and essays from the perennially best-selling The Double Helix.
The Writing Life of James D. Watson - Errol C. Friedberg - 2005
James Watson's fame as a scientist and research leader overshadows his considerable achievements as an innovator in the form and style of scientific communication. This book surveys Watson's books and essays from the perennially best-selling The Double Helix through his classic textbooks of the 1960s and 70s, polemics on ethical questions about genetic technology, to more recent works of autobiography.

The Human Face of the European Union - Nuno Ferreira - 2016-08-18
This collection asks a direct but complex question: is the EU humane enough? The implementation of EU law and policy and its balance between economic and social values continues to provoke debate. Providing fresh insight, Nuno Ferreira and Dora Kostakopoulou present a novel analytical framework, centred on the notion of humaneness, for assessing EU law and policy. This innovative approach leads to recommendations for policy change towards a more humanistic philosophy for the EU. Broad in its scope, this remarkable volume draws together interdisciplinary perspectives from contributors who examine key EU law and policy fields, including economic integration, asylum and free movement, citizenship and development, and security. This book is essential reading for scholars, students and policy-makers seeking new ways of exploring the economic versus social values debate in EU law.

Giving Globalization a Human Face - International Labour Office - 2012
This General Survey, which deals with all eight fundamental Conventions, seeks to give a global picture of the law and practice in member States in terms of the practical application of ratified and non-ratified Conventions, describing the various positive initiatives undertaken in some countries, in addition to certain serious problems encountered in the implementation of their provisions. The General Survey recognizes the interdependence and complementarity between these Conventions and their universal applicability, while bearing in mind the specificities covered by each Convention. The General Survey also highlights the main considerations elaborated by the Committee of Experts, as well as its corresponding guidance in order to achieve fuller conformity with the fundamental Conventions. The General Survey seeks to do this by analysing the scope, methods and difficulties of application for all eight Conventions, the most salient thematic features pertaining to each Convention, as well as their enforcement and impact.
and difficulties of application for all eight Conventions, the most salient thematic features pertaining to each Convention, as well as their enforcement and impact.

The United Nations of the Future - Willem J. M. van Genugten - 2006
This book argues that the UN is still very necessary, in a world full of conflict, poverty, and the lack of human security.

The United Nations of the Future - Willem J. M. van Genugten - 2006
This book argues that the UN is still very necessary, in a world full of conflict, poverty, and the lack of human security.

The Rat with the Human Face - Tom Angleberger - 2015-04-21
This hilarious, highly original series, which so astutely captures the odd preoccupations of middle schoolers, will appeal to the many fans of the Origami Yoda series and such gross-out classics as How to Eat Fried Worms and Freckle Juice. Lyle Hertzog and his friends Marilla and Dave are the Qwikpick Adventure Society, three kids who seek out adventure in their seemingly quiet hometown of Crickenburg. On the hunt for their next big mission—something to top the Fountain of Poop, if that’s even possible—the kids overhear a construction worker telling his buddies about a rat with a human face he saw in the basement of an old research facility. The decision is unanimous: the next adventure for the Qwikpick Society is on! But when their trip to find the rat doesn’t go quite as expected, the trio gets into big trouble. Will the second adventure for the Qwikpick Society also be their last?

The Expression of the Emotions in Man and Animals - Charles Darwin - 1872
This book examines the display of emotions by humans and animals. (PsycINFO Database Record (c) 2004 APA, all rights reserved)
