Excerpt from Dictionary of American Biography, Vol. 7: Fraunces-Grimké Frazer's success in Lexington was immediate. He demanded fifty dollars a portrait, the highest price in the city, and had no lack of patronage. His pictures of Henry Clay, Chief Justice George Robertson, M. T. Scott, president of the Bank of Kentucky, Joel T. Hart, and the group of his own wife and children were particularly felicitous. His work is marked by simplicity of line and firmness of texture, and generally preserves the virtues of eighteenth-century American painting. Personally, Frazer was eccentric and original, given to a proverbial irony and a not unbecoming hauteur. The uneven quality of his work was due in part to his temperament in ability to force himself to a standard, and in part to his sight, which in his later years was badly impaired. He died in Lexington. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Notable American Women - Ben Marcus - 2007-12-18
Ben Marcus achieved cult status and gained the admiration of his peers with his first book, The Age of Wire and String. With Notable American Women he goes well beyond that first achievement to create something radically wonderful, a novel set in a world so fully imagined that it creates its own reality. On a farm in Ohio, American women led by Jane Dark practice all means of behavior modification in an attempt to attain complete stillness and silence. Witnessing (and subjected to) their cultish actions is one Ben Marcus, whose father, Michael Marcus, may be buried in the back yard, and whose mother, Jane Marcus, enthusiastically condones the use of her son for (generally unsuccessful) breeding purposes, among other things. Inventing his own uses for language, the author Ben Marcus has written a harrowing, hilarious, strangely moving, altogether engrossing work of fiction that will be read and argued over for years to come.
