Early Christianity in South-West Britain
- Elizabeth Rees - 2020-03-30
This book offers a new assessment of early Christianity in south-west Britain from the fourth to the
of an imposing villa, which may by then have been owned by a bishop. In Somerset a number of recently excavated sites demonstrate the transition from a pagan temple to a Christian church. Beside the pagan temple at Lamyatt, later female burials suggest, unusually, a small monastic group of women. Wells cathedral grew beside the site of a Roman villa’s funeral chapel. In Street, a large oval enclosure indicates the probable site of a Celtic monastery. Early Christian cemeteries have been excavated at Shepton Mallet and elsewhere. Lundy Island, off the Devon coast, provides evidence of a Celtic monastery, with its inscribed stones that commemorate early monks. At Exeter, a Saxon anthology includes numerous riddles, one of which describes in detail the production of an illuminated manuscript in a south-western monastery. Oliver Padel’s meticulous documentation of Cornish place-names has demonstrated that, of all the Celtic regions, Cornwall has by far the highest number of

Wessex provides the greatest evidence of Roman Christianity. The fifth-century Dorset villas of Frampton and Hinton St Mary, with their complex baptistery mosaics, indicate the presence of sophisticated Christian house churches. The fact that these two Roman villas are only 15 miles apart suggests a network of small Christian communities in this region. The author uses evidence from St Patrick’s fifth-century ‘Confessions’ to describe how members of a villa house church lived. Wessex was slowly Christianised: in Gloucestershire, the pagan healing sanctuary at Chedworth provides evidence of later use as a Christian baptistery; at Bradford on Avon in Wiltshire, a baptistery was dug into the mosaic floor

The Liberal Party in South-west Britain Since 1918 - Garry Tregidga - 2000
The decline of the Liberal party is one of the most controversial subjects in twentieth-century British politics, and this book makes a distinctive contribution to the debate by focusing on the South West, where Liberalism remained a powerful force after 1918. During the 1920s it was one of the few areas where the party survived as a major force. By the early 1950s, when the Liberals were fighting for their very existence, it was their early revival in the far west which provided morale and purpose. Victories in Cornwall and Devon after 1958 improved
The Liberal Party in South-west Britain Since 1918 - Garry Tregidga - 2000

The decline of the Liberal party is one of the most controversial subjects in twentieth-century British politics, and this book makes a distinctive contribution to the debate by focusing on the South West, where Liberalism remained a powerful force after 1918. During the 1920s it was one of the few areas where the party survived as a major force. By the early 1950s, when the Liberals were fighting for their very existence, it was their early revival in the far west which provided morale and purpose. Victories in Cornwall and Devon after 1958 improved the party's credibility and effectively heralded the national Liberal revival. In recent years the regional Liberal Democrats have built on these historic foundations to emerge on equal terms with the Conservatives at Westminster and as the dominant party in local government. By concentrating on one region, this book offers fresh insight into issues relating to the UK as a whole. It moves away from the conventional focus on urban Britain to the neglected world of rural and small-town politics, and explores differences within the South West itself, from Celtic Cornwall in the far west to modern 'Wessex' in the east. A study of one of the key regions of Britain for the Liberal Party's survival and revival Raises important questions about the nature of regional politics Includes the significant 1997 election when the South West went against national trends.

**Late Pleistocene and Early Holocene Small Mammals in South West Britain** - Catherine R. Price - 2003

Price's thesis examines small mammal remains from twelve cave sites in south west England and Wales. This evidence is related to each cave's archaeological evidence in order to determine the impact of humans on depositional processes in caves as well as on the wider environment outside the cave. This is a specialist study with much of the data presented in diagrams, tables and distribution maps. The sites, located in south Devon, the Mendips, Wye Valley and south Wales, include Three Holes Cave, King Arthur's Cave, Merlin's Cave and Symond's Yat East Cave.

**Wales and the Britons,**
The most detailed history of the Welsh from Late-Roman Britain to the eve of the Norman Conquest. Integrates the history of religion, language, and literature with the history of events.

**Wales and the Britons, 350-1064** - T. M. Charles-Edwards - 2013

The most detailed history of the Welsh from Late-Roman Britain to the eve of the Norman Conquest. Integrates the history of religion, language, and literature with the history of events.

**The South West to 1000 AD** - Malcolm Todd - 2014-06-23

A unique and detailed history of the south-west of England written in a clear and accessible style. A wonderful resource for any local historian.

Britain and South-West Persia 1880-1914 - Shahbaz Shahnavaz - 2005-01-17

This book examines the diplomatic activities and behind-the-scene negotiations which led to the Karun opening, including an 'Assurance' given by Britain to the Shah against a Russian retaliation. It also provides a comprehensive analysis of the region's demography, commerce and industry before the advent of the Karun, and the impact of Britain's political and commercial penetration, which eventually resulted in her total domination of the south. This analytical study of the Anglo-Iranian relationship is unique in its extensive use of primary Persian sources and original material found at the Iranian Foreign Ministry archives which have been accessed by the author for the first time.

**Plympton Priory** - Allison D. Fizzard - 2008
A case study examining the history of a house of English Augustinian canons, this book reveals the ways in which Plympton Priory formed connections with the laity, the episcopacy, the secular clergy, and the Crown in the late Middle Ages.

**The Iron Age in Northern Britain** - D.W. Harding - 2004-08-26
The Iron Age in Northern Britain examines the impact of the Roman expansion northwards, and the native response to the Roman occupation on both sides of the frontiers. It traces the emergence of historically-recorded communities in the post-Roman period and looks at the clash of cultures between Celts and Romans, Picts and Scots. Northern Britain has too often been seen as peripheral to a 'core' located in south-eastern England. Unlike the Iron Age in southern Britain, the story...

**Wiltshire** - George Watkins - Collingwood - 1936-02
A history of English history from the Roman to Anglo Saxon period.

**Roman Britain and the English Settlements** - R. G. Collingwood - 1936-02
A history of English history from the Roman to Anglo Saxon period.

**Stationary Steam Engines of Great Britain: The south and south west : Cornwall, Devon, Dorset, Hampshire, Isle of Wight, Somerset & Wiltshire** - George Watkins - 2000
This is the seventh volume in a set illustrating the National Archive of 1500 photographs held at the English Heritage National Monuments Record Centre. It includes some photographs of waterwheels and other industrial material as well as extended captions and engine details.

**Lives, Identities and Histories in the Central Middle Ages** - Julie Barrau - 2021-09-30
Offers a new take on the identities and life histories of medieval people, in their multi-layered and sometimes contradictory dimensions.

**Roman and Medieval Exeter and their Hinterlands** - Stephen
This first volume, presenting research carried out through the Exeter: A Place in Time project, provides a synthesis of the development of Exeter within its local, regional, national and international hinterlands. Exeter began life in c. AD 55 as one of the most important legionary bases within early Roman Britain, and for two brief periods in the early and late 60s AD, Exeter was a critical centre of Roman power within the new province. When the legion moved to Wales the fortress was converted into the civitas capital for the Dumnonii. Its development as a town was, however, relatively slow, reflecting the gradual pace at which the region as a whole adapted to being part of the Roman world. The only evidence we have for occupation within Exeter between the 5th and 8th centuries is for a church in what was later to become the Cathedral Close. In the late 9th century, however, Exeter became a defended burh, and this was followed by the revival of urban life. Exeter’s wealth was in part derived from its central role in the south-west’s tin industry, and by the late 10th century Exeter was the fifth most productive mint in England. Exeter’s importance continued to grow as it became an episcopal and royal centre, and excavations within Exeter have revealed important material culture assemblages that reflect its role as an international port.

Creatures of the Night: A Book of Wild Life in Western Britain - Alfred Wellesley Rees - 2019-12-04

"Creatures of the Night: A Book of Wild Life in Western Britain" by Alfred Wellesley Rees. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Creatures of the Night: A Book of Wild Life in Western Britain - Alfred Wellesley Rees - 2019-12-04
800-1066 saw the beginnings of a fundamental restructuring of politics, society and economy throughout Christian Europe in which religion played a central role. In Britain too the interaction of religion with politics and society was profound and pervasive. There was no part of life which Christianity and the Church did not touch: they affected belief, thought and behaviour at all levels of society. This book points out interconnections within society and between archaeological, art historical and literary evidence and similarities between aspects of culture not only within Britain but also in comparison with Armenian Christendom.

A. E. Redgate explores the importance of religious ideas, institutions, personnel and practices in the creation and expression of identities and communities, the structure and functioning of society and the life of the individual. This book will be essential reading for students of early medieval Britain and religious and social history.
Religion, Politics and Society in Britain, 800-1066 - A E Redgate - 2014-03-05

Using a comparative and broad perspective, Religion, Politics and Society in Britain 800-1066 draws on archaeology, art history, material culture, texts from charms to chronicles, from royal law-codes to sermons to poems, and other evidence to demonstrate the centrality of Christianity and the Church in Britain 800-1066. It delineates their contributions to the changes in politics, economy, society and culture that occurred between 800 and 1066, from nation-building to practicalities of government to landscape. The period 800-1066 saw the beginnings of a fundamental restructuring of politics, society and economy throughout Christian Europe in which religion played a central role. In Britain too the interaction of religion with politics and society was profound and pervasive. There was no part of life which Christianity and the affected belief, thought and behaviour at all levels of society. This book points out interconnections within society and between archaeological, art historical and literary evidence and similarities between aspects of culture not only within Britain but also in comparison with Armenian Christendom. A. E. Redgate explores the importance of religious ideas, institutions, personnel and practices in the creation and expression of identities and communities, the structure and functioning of society and the life of the individual. This book will be essential reading for students of early medieval Britain and religious and social history.

A Companion to the Early Middle Ages - Pauline Stafford - 2013-03-26

Drawing on 28 original essays, A Companion to the Early Middle Ages takes an inclusive approach to the history of Britain and Ireland from c.500 to c.1100 to overcome artificial distinctions of modern national
history from leading scholars, covering the key debates and issues. Surveys the building blocks of political society, and considers whether there were fundamental differences across Britain and Ireland. Considers potential factors for change, including the economy, Christianisation, and the Vikings.

**A Companion to the Early Middle Ages** - Pauline Stafford - 2013-03-26

**The Urbanisation of the North-Western Provinces of the Roman Empire** - Frida Pellegrino - 2020-11-26

This study investigates the development of urbanism in the north-western provinces of the Roman empire. Key themes include continuity and discontinuity between pre-Roman and Roman ‘urban’ systems, relationships between juridical statuses and levels of monumentality, levels of connectivity and economic integration, and regional urban hierarchies.

**The Urbanisation of the North-Western Provinces of the Roman Empire** - Frida Pellegrino - 2020-11-26

This study investigates the development of urbanism in the north-western provinces.
Britain - Malcolm Todd - themes include continuity and discontinuity between pre-Roman and Roman ‘urban’ systems, relationships between juridical statuses and levels of monumentality, levels of connectivity and economic integration, and regional urban hierarchies.

A Companion to Roman Britain - Malcolm Todd - 2008-04-15
This major survey of the history and culture of Roman Britain spans the period from the first century BC to the fifth century AD. Major survey of the history and culture of Roman Britain Brings together specialists to provide an overview of recent debates about this period Exceptionally broad coverage, embracing political, economic, cultural and religious life Focuses on changes in Roman Britain from the first century BC to the fifth century AD Includes pioneering studies of the human population and animal resources of the island.

Roman Britain - Timothy W. Potter - 1992-01-01
Pieces together archaeological evidence with fragmentary writings of Caesar, Tacitus, and others to give a picture of Roman Britain.
Why did Roman Britain collapse? What sort of society succeeded it? How did the Anglo-Saxons take over? And how far is the traditional view of a massacre of the native population a product of biased historical sources? This text explores what Britain was like in the 4th-century AD and looks at how this can be understood when placed in the wider context of the western Roman Empire. Information won from archaeology rather than history is emphasized and leads to an explanation of the fall of Roman Britain. The author also offers some suggestions about the place of the post-Roman population in the formation of England.

Bretons and Britons - Barry Cunliffe - 2021-06-10
What is it about Brittany that makes it such a favourite destination for the British? To answer this question, Bretons and Britons explores the long history of the Bretons, from the time of the first farmers around 5400 BC to the present, and the very close relationship they have had with their British neighbours.
Throughout this time. More than simply a history of a people, Bretons and Britons is also the author's homage to a country and a people he has come to admire over decades of engagement. Underlying the story throughout is the tale of the Bretons' fierce struggle to maintain their distinctive identity. As a peninsula people living on a westerly excrescence of Europe they were surrounded on three sides by the sea, which gave them some protection from outside interference, but their landward border was constantly threatened - not only by succeeding waves of Romans, Franks, and Vikings, but also by the growing power of the French state. It was the sea that gave the Bretons strength and helped them in their struggle for independence. They shared in the culture of Atlantic-facing Europe, and from the eighteenth century, when a fascination for the Celts was beginning to sweep Europe, they were able to present themselves as the direct successors of the ancient Welsh, Scots, and Irish. This gave them a new strength and a new pride. It is this spirit that is still very much alive today.

**Beyond the Medieval Village** - Stephen Rippon - 2008-11-27
The varied character of Britain's countryside and towns provides communities with a strong sense of local identity. One of the most significant features of the way that its character differs from region to region, with compact villages in the Midlands contrasting with the sprawling hamlets of East Anglia and isolated farmsteads of Devon. Even more remarkable is the very 'English' feel of the landscape in southern Pembrokeshire, in the far south west of Wales. Hoskins described the English landscape as 'the richest historical record we possess', and in this book Stephen Rippon explores the origins of regional variations in landscape character, arguing that while some landscapes date back to the centuries either side of the Norman Conquest, other areas across southern Britain underwent a profound change around the 8th century AD.

**Medieval Devon and Cornwall** - Sam Turner - 2017-04-06
The countryside of Devon and Cornwall preserves an unusually rich legacy from its medieval past. This book explores the different elements which go to make up chapels, crosses, castles and mines; the tinworks and strip fields; and above all, the intricately worked counterpane of hedgebanks and winding lanes. Between AD 500 and 1700, a series of revolutions transformed the structure of the South West Peninsula's rural landscape. The book tells the story of these changes, and also explores how people experienced the landscape in which they lived: how they came to imbue places with symbolic and cultural meaning. Contributors include: Ralph Fyfe on the pollen evidence of landscape change; Sam Turner on the Christian landscape; Peter Herring on both strip fields and Brown Willy, Bodmin Moor; O. H. Creighton and J. P. Freeman on castles; Phil Newman on tin working; and Lucy Franklin on folklore and imagined landscapes.

This book explores the different elements which go to make up this historic landscape - the chapels, crosses, castles and mines; the tinworks and strip fields; and above all, the intricately worked counterpane of hedgebanks and winding lanes. Between AD 500 and 1700, a series of revolutions transformed the structure of the South West Peninsula’s rural landscape. The book tells the story of these changes, and also explores how people experienced the landscape in which they lived: how they came to imbue places with symbolic and cultural meaning. Contributors include: Ralph Fyfe on the pollen evidence of landscape change; Sam Turner on the Christian landscape; Peter Herring on both strip fields and Brown Willy, Bodmin Moor; O. H. Creighton and J. P. Freeman on castles; Phil Newman on tin working; and Lucy Franklin on folklore and imagined landscapes.

Little now remains: a tower, a Newquay Strategic Road and goes on to discuss the complexity of the archaeology, review the evidence for ‘special’ deposits and explore evidence for the deliberate closure of buildings especially in later prehistoric and Roman period Cornwall.

**Fonthill Recovered**
Caroline Dakers - 2018-05-16
Fonthill, in Wiltshire, is traditionally associated with the writer and collector William Beckford who built his Gothic fantasy house called Fonthill Abbey at the end of the eighteenth century. The collapse of the Abbey’s tower in 1825 transformed the name Fonthill into a symbol for overarching ambition and folly, a sublime ruin. Fonthill is, however, much more than the story of one man’s excesses. Beckford’s Abbey is only one of several important houses to be built on the estate since the early sixteenth century, all of them eventually consumed by fire or deliberately demolished, and all of them oddly forgotten by historians.

stable block, a kitchen range, some dressed stone, an indentation in a field. Fonthill Recovered draws on histories of art and architecture, politics and economics to explore the rich cultural history of this famous Wiltshire estate. The first half of the book traces the occupation of Fonthill from the Bronze Age to the twenty-first century. Some of the owners surpassed Beckford in terms of their wealth, their collections, their political power and even, in one case, their sexual misdemeanours. They include Charles I’s Chancellor of the Exchequer, and the richest commoner in the nineteenth century. The second half of the book consists of essays on specific topics, filling out such crucial areas as the complex history of the designed landscape, the sources of the Beckfords’ wealth and their collections, and one essay that features the most recent appearance of the Abbey in a video game.

**Bird Habitats in Britain** - R. J. Fuller - 2010-09-30

Rob Fuller's book would not have been possible but for the nationwide cooperative endeavour by amateur and professional ornithologists, naturalists and conservationists which led to the British Trust for Ornithology's Register of Ornithological Sites, sponsored by the Nature Conservancy Council.

Hitherto, few books have
endeavour by amateur and
habitats but the subject is of
urgent importance now that
exploitation of the
environment has left few
corners of Britain untouched
or unthreatened. Even so, the
book is much more than
timely, it also extends the
reader's interest to an area of
bird study that has, perhaps,
been too little considered. The
book describes all the main
habitat types, the structure
and composition of bird
communities, and reviews
bird sites and their
distribution throughout
Britain. For the birdwatcher
and all involved with
conservation, this is
stimulating reading and an
essential reference. The text
is supported by more than
100 diagrams and maps, and
over 50 photographs; in
addition there are 53 superbly
evocative drawings by Donald
Watson. Jacket illustrations by
Donald Watson

prehistorians, who still nevertheless regarded the ‘Arras’ culture of eastern Yorkshire and the ‘Belgic’ cemeteries of south-eastern Britain as the product of immigrants from continental Europe. Sympathetic to the idea of population mobility as one mechanism for cultural innovation, as widely recognized historically, it nevertheless attempted a critical re-appraisal of the southern British Iron Age in its continental context. Subsequent fashion in later prehistoric studies has favoured economic, social and cognitive approaches, and the cultural-historical framework has largely been superseded. Routine use of radiocarbon dating and other science-based applications, and new field data resulting from developer-led archaeology have revolutionized understanding of the British Iron Age, and once again raised issues of its relationship to continental Europe.

The Iron Age in Lowland

2014-11-13

This book was written at a time when the older conventional diffusionist view of prehistory, largely associated with the work of V. Gordon Childe, was under rigorous scrutiny from British prehistorians, who still nevertheless regarded the ‘Arras’ culture of eastern Yorkshire and the ‘Belgic’ cemeteries of south-eastern Britain as the product of immigrants from continental Europe. Sympathetic to the idea of population mobility as one mechanism for cultural innovation, as widely recognized historically, it nevertheless attempted a critical re-appraisal of the southern British Iron Age in its continental context. Subsequent fashion in later prehistoric studies has favoured economic, social and cognitive approaches, and the cultural-historical framework has largely been superseded. Routine use of radiocarbon dating and other science-based applications, and new field data resulting from developer-led archaeology
understanding of the British Iron Age, and once again raised issues of its relationship to continental Europe.

The Ruin of Roman Britain
- James Gerrard - 2013-10-10
How did Roman Britain end?
This new study draws on fresh
archaeological discoveries to
argue that the end of Roman
Britain was not the product of
either a violent cataclysm or
an economic collapse.

antique society, based on the
civilian ideology of paideia,
was forced to change by the
disappearance of the Roman
state. By the fifth century elite
power had shifted to the
warband and the edges of
their swords. In this book Dr
Gerrard describes and
explains that process of
transformation and explores
the role of the 'Anglo-Saxons'
in this time of change. This
profound ideological shift
returned Britain to a series of
'small worlds', the existence
of which had been hidden by
the globalizing structures of
Roman imperialism. Highly
illustrated, the book includes
two appendices, which detail
Roman cemetery sites and
weapon trauma, and pottery
assemblages from the period.

Corpus of Early Christian Inscribed Stones of South-west Britain - Elisabeth Okasha - 1993
A catalogue of inscribed stones in Cornwall, and neighboring areas, intended as a resource for scholars wishing to use Medieval artifacts to help illuminate the culture, religion, and society of early Christian Britain. Okasha (English, U. College, Cork, Ireland) constructs a systematic framework for classification, dating, translation, and interpretation. For 79 stones, she then provides the location, history of its study, a physical description, text(s), a discussion of the translation, classification and probable date, a bibliography, and a black- and-white photograph. No subject index. Distributed by St. Martin's Press.
