Adorno's damaged life - New Statesman

Music-related memory - Wikipedia

Memory works refers to the ability to remember music-related information, such as melodic content and other progressions of tones or pitches. The differences found between linguistic memory and musical memory have led researchers to theorize that musical memory is encoded differently from language and may constitute an independent part of the phonological loop.

Peter Abelard (Stanford Encyclopedia of Philosophy)

Aug 03, 2004 - 1: Life and Works 1.1 Life. Abelard's life is relatively well-known. In addition to events chronicled in the public record, his inner life is revealed in his autobiographical letter Historia calomnorum ["The Story of My Troubles"] and in his famous correspondence with Heloise. Abelard was born into the lesser nobility around 1079 in La Pallet, a small town in...

New Books Network | Amy Holdsworth, On Living with Jan 18, 2022 - How should we understand the role of television in everyday life? In On Living with Television (Duke UP, 2021), Amy Holdsworth, a Senior Lecturer in Theatres, Film & Television Studies at the University of Glasgow uses an autobiographical and autoethnographic approach to understand an object that has 'always been there' in many people's lives. The book...

Mental Imagery (Stanford Encyclopedia of Philosophy)

Nov 19, 1997 - It happens in all sense modalities and it plays a crucial role not just in perception, but also in memory, emotions, language, desires and action-execution. It even plays a substantial role in our engagement with artworks, making it a key concept not only in philosophy of mind, but also in aesthetics.
