In flight with American Airlines 10:00 p.m., 27th April 1949 Dear Stephanie, I hardly know where to begin. I am on a monstrous machine that is taking me thousands of miles away from you. Did you stay to see us take off? After I left you I had to wait in the passengers' lounge for nearly an hour, and I never spent a more miserable hour in my life! Parting may be "sweet sorrow," but I don't mean to be parted from you again. The next time I hold you in my arms you won't get away-ever! **Dear Friends, This Is Paul** - Robert H. Mounce - 2016

What you are about to read comes from the heart of the Apostle Paul, that great missionary theologian of the first century AD. It is remarkable that our understanding of the Christian faith rests primarily on thirteen letters written by a convert from rabbinic Judaism. No other set of ancient manuscripts has made such a dramatic impact on civilization over the past two millennia. Written to various churches in what we now call Asia Minor, they reveal the unique way in which God allowed the truth of the cross root in a hostile environment. Paul wrote in simple Greek and this new and vibrant translation stresses what the apostle intended to communicate rather than the specific words he used to accomplish the goal. Readable and free from ambiguity, it presents the ancient letters in a new and powerful way. You the reader will become, as it were, one of the original recipients, so prepare to listen to the once zealous adherent of Judaism who, by a dramatic encounter with the Christ he was persecuting, became the major figure in the westward expansion of Christianity.

"Robert Mounce's Dear Friends, This Is Paul stands in a noble tradition of explanatory renderings of Scripture along with the J. B. Dear Undercover Economist - Tim Harford - 2009-08-25
Look out for Tim's next book, The Data Detective. Throughout history, great philosophers have been answering profound questions about life. But do they know why your socks keep disappearing from the dryer, or how to choose the quickest line at the supermarket? does... In Dear Undercover Economist, the first collection of his wildly popular Financial Times columns, Tim Harford offers witty, charming, and at times caustic answers to our most pressing concerns—all through the lens of economics. Does money buy happiness? Is “the one” really out there? Can cities be greener than farms? Can you really “dress for success”? When’s the best time to settle down? Harford provides brilliant, hilarious, unexpected, and wise answers to these and other questions. Arranged by topic, easy to read, and hard to put down, Dear Undercover Economist lends an outrageous, compassionate, and indispensable perspective on anything that may irk or ail you—a book well worth the investment.

Dear Undercover Economist - Tim Harford - 2009-08-25
Americans are not shy about letting politicians know what’s on their minds, and, in Harry Truman, they believed that they had a president they could level with. He even sometimes responded personally to them—especially on subjects he felt strongly about. Today, it seems remarkable that a man who described the presidency as “the most awesome job in the world” would take the time to read and respond to White House mail. Truman, however, had an unquenchable thirst for what his “everyday Americans” were thinking, yet distrusted opinion polls. For him, the daily stack of mail provided the next best poll after the voting booth. Authors Giangreco and Moore include a robust cross section of the thousands of messages sent to Truman. Juxtaposed with informative background essays, these letters provide an undiluted account of the greatest challenges confronting the U.S. during Truman’s administration, including civil rights, the Marshall Plan, the formation of the United Nations, and the Eisenhower era.
