Though Americans rarely appreciate it, federalism has profoundly shaped their nation’s past, present, and future. Pedagogically, the division of government authority between the national government and the states—federalism—has fascinated, even confounded, philosophers and policymakers. Despite its enduring nature, federalism may seem anachronistic, but as this book shows, federalism has played a vital but often underappreciated role in shaping the modern American state.

The book’s narrative begins with the Civil War and moves through the New Deal and the Cold War to the present. As author Charles Johnson explains, federalism became a dominant feature of the constitutional order after Lincoln’s death, when the “New Federalism” was created during this era from dozens of policy initiatives enacted by a modernizing Congress. The expansion of national power took the nineteenth and early twentieth centuries. Examining the fifty-two years from the end of Reconstruction to the beginning of the Great Depression, Johnson shows that

Federalism and the Making of America

is a sorely needed text that treats the politics of federalism systematically and accessibly, making it indispensable to all students and scholars of American politics. Chosen as one of Choice’s Outstanding Academic Titles for 2012.

The Rise of the Agricultural Welfare State

Though Americans rarely appreciate it, federalism has profoundly shaped their nation’s past, present, and future. Pedagogically, the division of government authority between the national government and the states—federalism—has fascinated, even confounded, philosophers and policymakers. Despite its enduring nature, federalism may seem anachronistic, but as this book shows, federalism has played a vital but often underappreciated role in shaping the modern American state.

Presently, ideas about food are in flux from a variety of sources. Examples of this evolution include recognizing the importance of food in public health and linking healthy eating to economic development. This book examines the relevance and importance of food for both public health and social change through its examination of the protests surrounding the 1980s Farm Crisis, which were marked by a national farm strike in 1985 and dozens of local protests dedicated to the need for comprehensive and adequate farm policy.

Bygone Utopias and Farm Protest in the Rural Midwest

The book is the definitive biography of a heroic chronicler of America’s Depression and one of the twentieth century’s greatest photographers. We all know Dorothea Lange’s iconic images—the Migrant Mother holding her child, the men huddled in a bread line, the homeless in a slum, the broken-down farmer standing in his ruined house. But not nearly so well known are the stories behind the images, the events behind the photographs, and the man who captured these images.

Winner of the 2010 Bancroft Prize and finalist for the 2009 Los Angeles Times Book Prize in Biography: The definitive biography of a heroic chronicler of America’s Depression and one of the twentieth century’s greatest photographers.
