The Contributions of Interactive Conflict Resolution to Peacemaking

Ronald J. Fisher: A North American Pioneer in Interactive Conflict Resolution - Ronald J. Fisher - 2016-12-03

This volume presents selected papers focusing on Ronald Fisher's cumulative contributions to understanding destructive intergroup conflicts from a social-psychological perspective, and to the development and assessment of small group, interactive methods for resolving them. Highlights include schematic models of third party conflict resolution, negotiations, and a comparative analysis of second-order change. The editors offer themes, analyze unique contributions to the field, and proposes major principles.

International Conflict Resolution After the Cold War

Ronald J. Fisher - 1997-06-01

This book examines the technique of interactive conflict resolution for peacemaking: impartial third parties through facilitated dialogue and focused analysis brings together unrepresentative representatives of groups or nations engaged in protracted, violent conflict. The book underscores the importance of understanding this technique in situations in Israel-Palestine, Northern Ireland, India-Pakistan, and Cyrus, among others. The development of methods of structured conflict analysis, group problem solving, the legal process, the mediative process, the consultation, and the psychodynamic approach. This book also explores how the technique can be used in conjunction with official diplomacy and other methods of third party negotiations, including mediation and pre-negotiation. The author also addresses the critical areas which threaten the field, such as funding and institutionalization, and propounds the major principles in years ahead.

The Handbook of Conflict Resolution

- Morton Deutsch - 2011-03-04

This book provides a reader on experiences of mediation throughout history and in many different regional, cultural, and legal contexts. For example, it provides a historical overview of the development of mediation in the Arab-Israeli conflict resolution and peace process. The book follows a fascinating case study not previously reported on. For those not familiar with the field it provides a window on an alternative possibility for peacemaking in political conflicts. The book is held together by the editor's introduction, which defines political mediation, the research methodologies employed, the relationship of these researches to participatory democracy, and the growth of mediation in the past twenty years. The chapters which follow provide the anatomy of successful and unsuccessful mediations in contexts as widely diverse as the 30 Years War (1618-1648) which was ended following the intercession of the future Pope, Alexander VII. These chapters are an essential reference for the mediation practitioner and expert in other political conflicts, and in Chiapas, while a further group of chapters looks at conflicts in Ethiopia, Northern Ireland, Central America and Congo.

Track Two Diplomacy and Jerusalem

This book provides a framework that sheds an illuminating light into the psycho of people involved in macro-level destructive intergroup conflicts, involving societies and ethnic groups, that take place continuously in various parts of the globe. It focuses on the socio-psychological repertoire and decision-making in these societies and which plays a determinative role in its dynamics. Specifically, this repertoire influences the nature of social reality about groups and the conflicts that arise among them. On this plane, the book aims to determine the functioning of society members for the conflict, the sense of solidarity and unity they experience, the conformity expected from society members, the psychological foundations and dynamics are similar. It offers a holistic and comprehensive outlook on the dynamics and characteristics of socio-psychological repertoire in relation to the conflict. This book presents a particular part of the cycle, describing the theoretical frameworks and concepts, as well as presenting empirical data that was accumulated. The volume is an important contribution for all those who study intergroup conflicts and peacebuilding initiatives. The book provides an understanding of how people are involved in destructive intergroup conflicts peacefully and who need knowledge about the socio-psychological vectors that influence their course and resolution.

Theory and Practice of Conflict Resolution and Interactive Problem-Solving - Herbert C. Kelman - 2007-07-20
This book is a collection of articles and essays by Professor Herbert C. Kelman, a leading figure in the conflict resolution, peace studies, conflict resolution, psychology and IR in general. It offers a comprehensive and well-rounded outlook on the analysis and resolution of conflicts. This consists of moving from the study of analytical approaches to the development of interactive problem-solving workshops, an approach which has had a deep impact not only on research, but also on the practice of conflict resolution around the world, and especially in the Middle East. Focusing on Kelman’s conflict resolution and interactive problem-solving work, and the way in which it has been written and communicated by Kelman across his career as an academic and practitioner. By bringing together these carefully selected articles the book offers a coherent and comprehensive overview of the conflict resolution and interactive problem-solving approach to conflict resolution, the development of the study and practice of Interactive Problem Solving Workshops, and the world of peacebuilding initiatives. The book is of interest to students of peace and conflict studies, conflict resolution, psychology and IR in general.

Theory and Practice of Conflict Resolution and Interactive Problem-Solving - Herbert C. Kelman - 2016-07-20
This book is a collection of essays and articles by Professor Herbert C. Kelman, a leading figure in the conflict resolution community and one of the most influential peace researchers. Professor Kelman, a social psychologist, has been a pioneer of conflict resolution and peace research, and his work in conflict resolution has included a decisive contribution to the development of “interactive problem-solving”, an approach which has had a deep impact on research, and which has been used to discuss post-conflict peacebuilding. This ambiguity undermines efforts to agree on common understandings of how peace can be most effectively ‘built’, thereby impeding swift, coherent action. Accordingly, this book aims to clarify and illuminate the multiple facets of post-conflict peacebuilding, by presenting its multiple dimensions and trends from the perspective of psychology and IR. Written by international experts from a range of disciplines, including political science and international relations, law and economics, and sociology, this book covers the entire spectrum of post-conflict peacebuilding. In reflecting a diversity of perspectives the lexicon sheds light on many different challenges associated with post-conflict peacebuilding. For each key concept a generic definition is proposed, which is then expanded through discussion of the challenges associated with it and its essential components and its means of implementation, including lessons learned from past practices.

Improving Intergroup Relations focuses on emerging research directions for improving intergroup relations, a field which has been largely influenced and inspired by the life contributions of Thomas F. Pettigrew. The book contains 18 original articles written in an accessible style by experts in psychology and related disciplines. It suggests practical strategies for improving intergroup relations, looks at intergroup relations from the early influence of Dr. Pettigrew, and how his seminal work has fostered many new developments in the field. It explores the implications of intergroup research for the promotion of social change.
